ECHOWORX

Seamless, trusted and audit friendly

Protecting client data in real estate is more important than ever before. With technology exploding across all steps of the transaction, the risk grows larger every day.

- Send an encrypted email just as you send everyday email and give your contacts a seamless experience.
- Our solutions are used by thousands of professionals in all steps of the real estate transaction

Layer 2 – Security Awareness Training and Simulation

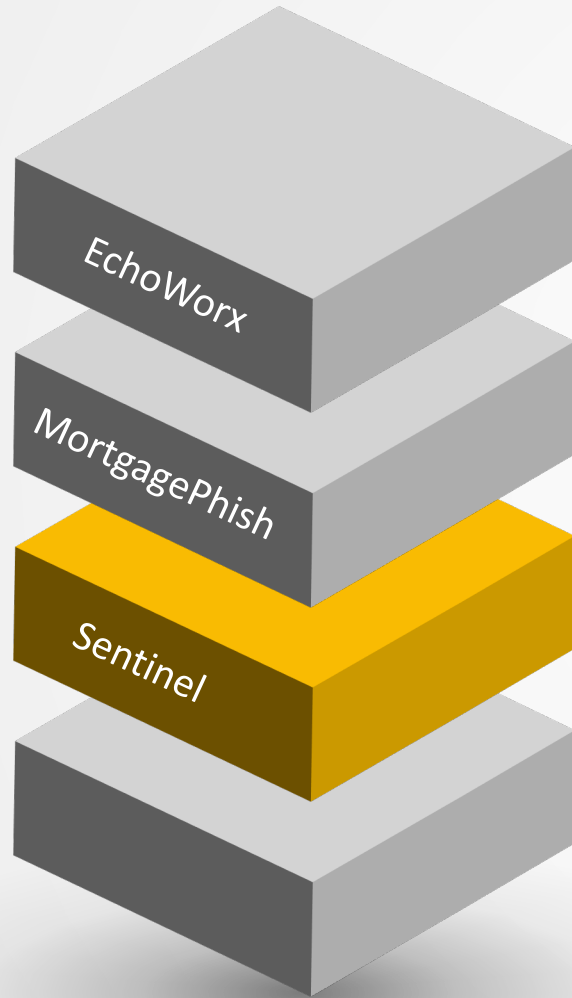

Test, train and engage your employees.

Mortgagephish enables organizations to take on the role of an attacker (phishing simulation) and identify gaps in both the technical infrastructure and security awareness and resolve them through a comprehensive e-learning program.

Layer 3 – Artificial Intelligence

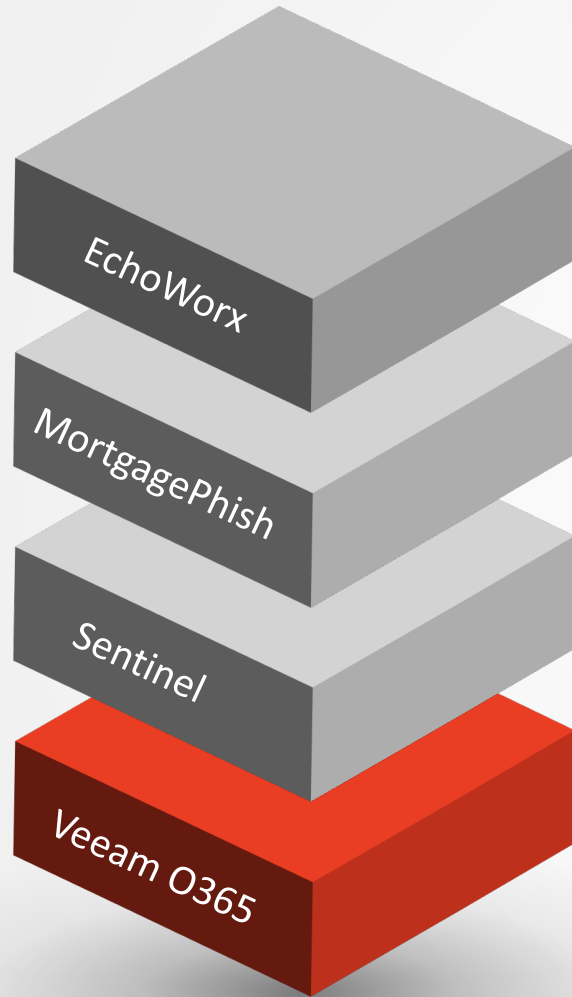

Stay a step ahead of attackers with AI-based threat detection.

Over 95% of Office 365 mailboxes harbor malicious emails that got past their email gateway. Discover email threats before your users do

Sentinel detects threats that traditional email security systems can't. It integrates directly with Microsoft Office 365 APIs to detect attacks coming from both internal and external sources. It uses artificial intelligence to detect signs of malicious intent and deception within every email.

Layer 4 – Office 365 Backup and Recovery

The control and protection required for your Office 365 data

Microsoft provides powerful services within Office 365 – but a comprehensive backup of your Office 365 data is not one of them.

Veeam® Backup for Microsoft Office 365 eliminates the risk of losing access and control over your Office 365 data including Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams – so that your data is always protected and accessible.
